WORK EXPERIENCE

I created two pets sites on HTML/CSS(Scss)/JS :
YogaMasters, Ukraine for life.

YogaMasters is a websites of online yoga trainings.
You can buy yoga training, find coach etc.
(HTML/Scss) <https://tarasishe.github.io/YogaMaster/>

Ukraine for life is a charity foundation which helps ukrainian army and war victims (HTML/Scss/JS)

After these sites, I solved a lot of tasks in codewars and than start to learn Vue.JS. I did some projects in VUE :

VueApp: calculator, weather-forecast, to-do list, authentication(VUE, CSS, Firebase, Fetch, Options API)
<https://tarasishe.github.io/VueApp/>

Vue-move: apps for movie`s fans who wants to find film according to their mood(VUE, TailwindCss, Firebase, Composition API, Fetch)
<https://tarasishe.github.io/Vue-movie/>

VueWineShop: simple online shop made with Firebase database where are orders are saved(VUE, TailwindCss, Firebase, Pinia, Axios, Composition API).
